>oday, Attorney General William P. Barr announced the launch of Operation Legend, a sustained, systematic and coordinated law enforcement initiative across all federal law enforcement agencies working in conjunction with state and local law enforcement officials to fight the sudden surge of violent crime, beginning in Kansas City, MO. I'm from KCMO ask me anything about KC. Violent crime has exploded this year in terms of homicides. We're already at 100, and the past few years, also bad, we only had like 120 or 130 murders per year. Low point was 2011 or 2014 with like 80ish or 90ish murders a year. Now we're getting back to early 90s level.

Oh, and our Mayor actually marched with protesters and agrees that police should be defunded to a degree etc.

He's a 35 year old pretty inexperienced politician. He also led the charge to rename The Paseo to Dr. Martin Luther King Jr. Boulevard and they changed the name then massive citizen petition and vote, by many black people, took MLK's name off the street and changed it back to The Paseo. A lot of attempts to rewrite history in KC and make it a full blown nigger city. Unfortunately I'm probably moving out soon, I don't see things getting better over time, only worse. The niggers have increased in number and grown more violent over the past couple of years. Multiple shootings in entertainment districts in the middle of the day. Living here redpilled me

It's such a shame because Kansas City has the potential to be a truly world class near utopia city but it will never happen due to abundance of groids and poor politically neutered leadership. Our mayor, for all his faults, doesn't even really have much power. It's all vested in the city council and city manager, he's basically just the PR guy for the city.

I was so dismayed by the protests this year, luckily not as violent as other places but some shop windows did get smashed. We had been lucky for the past number of years and hadn't had any significant protests, just generic anti trump shit attended by normies.

It's all so tiresome, also I think Kansas City may be the mulatto capital of the USA. I see so many mixed race couples and white women with niglets in tow at the grocery store. It's extremely common and makes me very depressed. Then again, we do have a based mulatto in Patrick Mahomes as a quarterback for our sportsball team. Still, I see it as a gradual societal degeneration here

Random ultra violence is a hugely successful strategy. Black ultra violence is modern day lynching. They can take over entire city blocks, even cities by randomly killing people.

Thats why BLM doesnt condem black on black or black on white violence. They understand its what gives them enthocentric city states they can run with complete autonomy.

Its an inverted ghetto where they arent forced to be there with violence, they force everyone else out with violence.

I mean you can buy a mansion built with exquisite craftsmanship in these cities which at one point were the richest most powerful most beautiful cities in the world for 4,000 dollars. And no one will.

Its not an accident.

Any idea where they're coming from?
Or is it homegrown?
I've been curious about how this since it happened in and around my hometown about 5 years ago.
In my case, the downtown area which was historically niggerghetto got gentrified by an influx of hipsters and highrises.
Suddenly niggers are pushed out to the surrounding small towns and turned them to shit incredibly fast.

actually yes, my friend used to work in a liquor store in the ghetto for years and he was talking to one of his black former coworkers recently and he said that local churches were offering rehab type services for addicts and transients in other cities. Basically bussing/enticing them to come to KC with free treatment and then when the treatment period ends they either become homeless or just get a section8 apartment but either way it's leading to an increase in niggerdom. I suspect this kind of thing is happening in many cities

yeah I feel for the westport business owners even if some are cucked whites. I mean, first numerous nigger shootings in 2017 and 2018 really caused a drop in attendance. It didn't really pick up last year despite the enhanced security measures. And right when they were poised for a comeback Covid-19 happened.

Protesters have been marching from the plaza to westport recently, even protesting angrily outside Kelly's, the oldest structure in Kansas City. They've already renamed JC Nichols Fountain and they're destroying the history of this city

It has started to leak out about the looting and thieving that occurred at the Plaza.

They burned a police car and one of the news stations SUV's.

They defaced a church down there and there was graffiti even on the high end apartment/condo buildings down there.

They threw at the police: lit fireworks, actual pigs heads, urine, spit, bricks and rocks.

My wife is from Kansas City. Her parents divorced when she was 12. Her mom got custody, and her dad moved innawoods. When my wife turned 15 she got to choose, and she chose to live with her dad while her older sister stayed with her mom. Fast forward to now, my wife is the embodiment of tradwife. She's loving, supportive, submissive, and takes great care of our toddlers. Meanwhile, her sister is a degenerate single mother. The cunt is imposing her politics on her two little girls and it fucking infuriates me. Her oldest is 7 and has a shaved head. We've loaned her money several times over the years because "idk how my kids are going to eat." Their father is beta as fuck. When he's not playing video games and getting high he works as a waiter at some chain restaurant. Recently, my wife has tried very hard to steer her in the right direction because she's becoming more and more radicalized. She told her that even if she "doesn't need a man" she still needs Jesus. It went about as well as could be expected. So now they don't talk at all. Which I'm fucking elated about. There's absolutely no way I'd let my children be influenced by her.

Listen up everyone !

The Final Solution to all the problems is The Holy Name.
Both , the Left wing and the Right wing are necessary to fly this plane.
Instead of chanting profanities and nonsense to each other , the Left and the Right can come together United in chanting of the Holy Name.
The Holy Name is truly the positive alternative to all negativity.

HARE KRISHNA HARE KRISHNA
KRISHNA KRISHNA HARE HARE
HARE RAMA HARE RAMA

Yeah there are actually nice-ish parts of the Paseo now. And of course there is the usual whining, "They be takin our houses" and "The rent is too damn high." What's funny is that a lot of people moving in are young, black suburbanites. And plenty of white people too.
